

CAPIO

SMART. FLEXIBLE.
STRONG IN DESIGN.

CAPIO - MODERN CONTROL UNITS
FOR ELECTRONIC FURNITURE LOCKS

CAPIO

SMART. FLEXIBLE. STRONG IN DESIGN.

The CAPIO product range by LEHMANN offers modern control units for electronic furniture locks - including keypads, hybrid solutions, and RFID readers. All versions share a uniform, timeless design, high functionality, and flexible application options.

CAPIO TA03, CAPIO TA03 RFID, and CAPIO RFID, provide solutions for various application requirements: from PIN-based operation to combined two-factor authentication and pure RFID access control.

The components can be combined with various LEHMANN locking systems and stand out with their intuitive operation, visual-acoustic feedback, and elegant design.

CAPIO PRODUCT RANGE

Key features at a glance

Versatile modes of operation

Models with PIN code, RFID technology, or a combination of both.

Flexible usage modes

Choose between assigned or shared use.

Visual & acoustic feedback

Clearly visible LED indicator lights and signal tones ensure safe user guidance - for both PIN entry and RFID transponder use.

Modular system design

Uniform design concept for all CAPIO components.

CAPIO TA03 RFID | CAPIO RFID

**Operation via NFC app -
for iPhones and Android
Smartphones.
With smart
additional features.¹**

Individual in design

Numerous colour combinations available.

Easy handling

Ergonomic, thanks to an integrated handle function.

Smartphone compatibility

Can be operated with the LEHMANN Transponder App.²

¹ Available for CAPIO TA03 RFID | CAPIO RFID. Transponder app with NFC technology for iPhones (from iPhone XS with iOS 17.4 or higher) available for the European Economic Area.

² In combination with pro variants of the compatible locks.

³ Transponders must be checked in advance for compatibility and range. Please observe the minimum distance between the RFID readers.

CAPIO TA03

PIN OPERATION. PROVEN. INTUITIVE.

The CAPIO TA03 keypad is the ideal solution for PIN-based access control. It enables fast and intuitive operation of electronic furniture locks – either with a fixed or freely selectable PIN.

PIN code function

Operation via freely selectable or fixed PIN code (3-10 digits).

Quick configuration

Lock configuration possible via keypad or NFC app on iPhones and Android smartphones.²

Easy emergency access

Access for authorised persons via emergency code.

Compatible with M410 / M410 pro, M420 / M420 pro and M610 / M610 pro

CAPIO TA03 RFID

TWO-FACTOR. SECURE. FLEXIBLE.

The CAPIO TA03 RFID combines PIN operation and RFID technology in one unit. Especially suitable for applications with higher security requirements – thanks to optional two-factor authentication (RFID transponder and PIN).

Combined operation

Access via PIN or MIFARE® RFID transponder³.

Two-factor mode

RFID transponder and PIN for enhanced security.

Compact format

Slim design for subtle furniture integration.

Compatible with M420 / M420 pro

CAPIO RFID

CONTACTLESS. COMPACT. DISCREET.

The CAPIO RFID reader enables convenient, contactless operation of electronic furniture locks – ideal for those who appreciate modern, subtle design and ease of use.

RFID access control

Contactless access via MIFARE®, LEGIC®, and HID® RFID transponders.³

Emergency power supply

Micro-USB port for temporary power supply.

Configuration and management

Via master and programming cards or the LEHMANN Management Software (LMS).

Compatible with M420 / M420 pro and M610 / M610 pro
