

EMERGENCY POWER ADAPTER RFID EA01

Operating instructions

SAFETY PRECAUTIONS

- When using the emergency power adapter please make sure that the contact pins are not bent or short-circuited.
- Please note the usual safety instructions for handling batteries.
- Improper handling may cause injury by the tips of the contact pins.
- The use of the adapter should only be done by trained staff.
- Use the emergency power adapter only briefly for single emergency opening of a lock.
- Keep the adapter in a dry (non-condensing) environment without the battery.

USER INSTRUCTIONS

- Connect the emergency power adapter with 9-volt battery / PP3. (Image 1)
Pay attention to the correct contact.
- Then insert the contact pins in the correct position and completely into the appropriate sockets on the reader housing. (Image 2)
- Open the lock with an authorized RFID card.
- Disconnect the emergency power adapter immediately from the reader.
- Disconnect the battery from the adapter and store both appropriately.
- Change the batteries of the lock.
